ion

ion

For all senses

Amphion Ion is physically small but offers enormous performance. Ion's range is complete, musically rich, and highly resolved. Soft rounded shapes and classic proportions make Ion a modern, yet timeless design. When you desire the best possible sound without the bulk of normal loudspeakers, choose Ion. Which color is the right one for your décor: white, black, or silver?

Award Winning Industrial Design

At its introduction, Ion was awarded a coveted design prize at the respected Habitare exhibition in Helsinki. Ion was chosen by the Finnish Interior Journalists Association as one of their favorites: "Small and petite, but with Top Class Sound".

Innovative U/D/D Technology

Ion uses Amphion's proprietary U/D/D technology (Uniformly Directive Diffusion), which allows the speaker to work at optimal level in all kinds of rooms, and makes positioning a breeze. Of course, Ion performs superbly in both stereo and home theater applications.

Amphion speakers are designed and manufactured in Finland.

Operational principle:	2-way bass reflex
Tweeter:	1"
Bass driver:	4 1/2"
Crossover:	1600 Hz
Impedance:	8 ohm
Sensitivity:	86 dB
Frequency range:	55-20 000 Hz, -6dB
Power recommendation:	20-120 W
Measurements (h x w x d):	10 1/2" x 5 1/4" x 8 3/4" (268 x 134 x 220 mm)
Weight:	10 1/2 lbs. (4,7 kg) per piece
Enclosure material:	Painted 3/4", (19 mm) MDF
Colors:	Black, Silver, and White

U/D/D -technology
Uniformly Directive Diffusion
