THE X3-SERIES

The X3-series is a new series with quality/price ratio which is very attractive. Traditional yet modern design, high quality Low Compression drivers, beautifully simple cross-over technology - in other words the well known Audiovector technologies, which ensures exceptional sound quality. Available in black or white high gloss lacquer.

The X3-series comprises of two versions: The X3 Super and the X3 Signature. Just like with the Si-series, it is easy to hear why one is even better than the other. And why it is more expensive.

Both versions use an aluminium composite sandwich membrane and molded magnesium alloy chassis with an extremely open structure. The result is a very dynamic bass performance.

The X3 Super is equipped with an Audiovector Low Compression treble driver. The X3 Signature uses an Audiovector Evotech Low Compression driver.

AUDIOVECTOR

SPECIFIKATIONS

	SIGNATURE	SUPER
Frequency response	33 Hz – 26 kHz	33Hz – 22 kHz +/- 3dB
Impedance	4 – 6 Ohms	4 – 6 Ohms
Cross-over frequency	3100 Hz	3000 Hz
Sensitivity	90.5 dB	90.0 dB
Power handling	220 W	180 W
Bass/mid drivers	LCC aluminum cone	LCC aluminum cone
Treble driver	LCC silk dome	LCC silk/fibre dome
Net weight	18 kilos	16 kilos
Dimensions (HxWxD) mm	1000 x 200 x 335	1000 x 200 x 335
