

Mapleshade is proud to offer the new reference monitor we use in our studio, the Strada by ANTHONY GALLO ACOUSTICS.

I know of no speaker under \$20,000 that is more truthful or revealing. Properly mounted, this diminutive monitor unveils nuanced musical excitement and soundstage layering I've never heard before. Integrating the Strada with the Gallo subwoofers opened up a seamlessly huge sound and stage, huge enough to outdo two hundred pound megaspeakers.

Pierre Sprey,  
Mapleshade recording engineer and audio designer
