

Quali-TV "Portable Gear" Combo LCD TV series

15,6" model

19" and 22" model

The Portable Gear Combo LCD TV series comes with a handy backstand and is designed aimed at the camping, motor home, marine, bachelor suite, bedroom and kitchen placement. With the trendy design you will enjoy watching TV anywhere, anytime.

With the extensive inputs and functions, this TV can be used to watch your favourite TV programs, including Pay-TV channels by using the C.I. function, watch your favorite DVD's, view your holiday pictures and movies and listen to your favorite music. You can even hook it on to your game station or PC and enjoy everything in high resolution picture quality.

And what's more..... It can record your favourite digital TV program in the same quality as you are watching it. Just insert a suitable USB stick or connect a USB harddrive to the TV and press the record button... You will never miss a program again.

Important for portable use, is the input voltage range. The "Portable Gear" Series can handle a wide input voltage range from 10VDC to 30VDC, so it can be used with most low voltage systems around and it can cope with large voltage fluctuations. Ofcourse it also includes a power adapter for 230VAC operation.

The TV comes in the following sizes: 15,6", 19" and 22".

Specifications
