Welcome to the G1 Spirit

GIYA G1 SPIRIT

Welcome to the continuous quest for perfection.

It has been said that improving the G1 would be like gilding a lily, there's no question that the bar has been set very high. Nevertheless, the driving spirit behind Vivid Audio is that any hint that an improvement is possible has to be pursued, tested and perfected.

When reviewing improvements it resulted in the opportunity to reconsider multiple aspects of the design. Including a new aspect to the exterior shell with longer wider port for increased linear LF output, new C225-100 bass drivers, Lower-mid driver C125-75 with carbon rings, chassis and CNC machined sandwich composite stiffening braces.
