

Restio

Spend Time the Way You Want

Catch the moment with the music that defines you.
Restio becomes a part of your life and enhances it.
Create your own space, design your own environment through music.

Series Concept

As an audio player, a clock and alarm, and as a piece of interior design, Restio fits effortlessly into your routine. From everyday casual simplicity to days filled with joy, Restio creates quality time for life and music.

Series Persistence

The Quality You Expect

Good furniture expresses your own sense of style and creates relaxing spaces. Restio too values quality as a piece of furniture that enhances comfort. It has been designed to compliment various layouts and color schemes, paying attention to the quality of your cherished home environment.

Design Blending into Life

Restio is designed for the way you live. Its understated design doesn't get in the way with a heavy or iconic presence. And it won't interrupt your daily rhythm. The slim design frees up space and it can even be wall-mounted. You decide. Restio compliments your home wonderfully.

Functionality that Uplifts

Flexibility and ease of use is assured through compatibility with *Bluetooth*® and dedicated apps. The ISX-80 and ISX-803 systems each have their own apps, allowing you to remotely control not just your music but also alarm and other settings.

ISX-80

Decorate Your Home with Music

Restio provides interior art through music whether wall-mounted or placed on a shelf. Compatibility with streaming services and Yamaha's new system MusicCast means more ways to enjoy music than ever before.

Integrated Audio System ISX-80 / 803

MusicCast

Scan code for more information

MusicCast is a new revolution in network audio, use all your MusicCast products together or separately, it's completely up to you. Control it, all from one app, designed to be intuitive, quick and simple to use. Use a soundbar, a wireless speaker, an AV Receiver, HiFi audio whichever suits you best, mix and match then expand your MusicCast system as time goes on. All new from Yamaha, the MusicCast system brings everything to everywhere for everyone.

Wireless Networks through MusicCast

MusicCast connects you with your music through your home's wireless network. Enjoy content from any MusicCast-compatible devices located in any room in your home—or any Blu-ray or CD player connected to them.

Design Matters

With close attention to the details of material and form, Restio epitomises interior quality. Its compact, high-quality 30.2 cm (11-7/8") square form can be placed on a shelf or wall-mounted to create the space you desire. The front panel manufactured from a single sheet of expanded steel mesh reduces waste resulting in lower environmental impact.

Expanded metal front panel

Aluminium hairline finish outer frame

Aluminium coated display bezel

Milled aluminium stand

More Music through Bluetooth and Streaming Services

Restio supports wireless playback from a smartphone or tablet via *Bluetooth*. And with access to streaming services and FM radio built in, Restio is set to deliver almost unlimited musical content.

* Streaming service availability varies by region.

Bluetooth output for convenient music streaming

The ISX-80 is equipped with the latest *Bluetooth* technology, making wireless operation more convenient than ever. You can stream music from the ISX-80 to *Bluetooth* headphones for private listening or to *Bluetooth* speakers for enjoying your music in another room.

* Bluetooth streaming can only be used for one device at a time.

MusicCast CONTROLLER for Simple Operation

Install the MusicCast CONTROLLER app on your smartphone or tablet to stream content, pause/play, adjust the volume and change settings. The same Controller app functions as a remote for all your MusicCast-compatible devices on the same network.

Freedom of Movement and Use

Built-in *Bluetooth* means that you can enjoy all the music from your iPhone, Android or Tablets wirelessly. Put your ISX-803 wherever you want it, and use your smartphone as you usually do to operate the playback functions. In addition to operating the system, you can use Yamaha's DTA CONTROLLER app to set the alarm time for each day of the week individually, as well as make detailed IntelliAlarm settings.

Sounds That Lets You Appreciate Music

ISX-803 is designed for premium quality sound from a wide range of input sources, including *Bluetooth*, CD, Radio, USB and AUX input. A two-way, four-speaker system finely tuned to HiFi audio standards delivers powerful, expansive bass and crisp, precisely contoured treble. It also features a three-band equaliser, so you can adjust the sound to match your own preferences.

Minimal Design Allows Flexible Placement

With a 9 cm (3-1/2") body and a half-moon shaped stand, you can position ISX-803 right up against a wall. What's more, the standalone style doesn't require a shelf, so there are no restrictions on where you can put it. You can even remove the stand and hang it on a wall (requires an optional bracket AT-800). It's the perfect way to match your music source to any room's decor.

Time - Artistically Displayed

The stylish digital clock gives you a choice of two patterns: the usual number display and a unique display that combines numbers and an indicator. An auto dimmer function adjusts the brightness of the display to match the brightness of the room. It also features Yamaha's IntelliAlarm, which first gently plays the music of your choice and then beeps to ensure that you are fully awake.

Clock showing 10:25.

The indicator is in the hour position, the numbers show the minutes
