

PSW20

The PSW20 is a high quality projector of sound made from ABS (plastic). It is a 100V application which singles itself out for other models because of its exceptional output. As a result, it stands out above the ambient noise of sound-pressure. The PSW20 has been custom-designed for industrial spaces and buildings and can be used for music and as a PA system. This onwall speaker comes with a standard U-shaped mounting bracket.

Thanks to its high output levels, the PSW20 stands out above the noise of working machines.
