

We admit it. You can barely see the Tutto. This isn't that surprising considering it's only 9cm high. Don't be fooled by its size; it produces superior timbre.

## Tutto

Tutto2.1 delivers a space-filling sound whilst remaining highly discreet. Versatile speaker set with deluxe rubber finish, for both large and small spaces. It has been designed for residential use, use in shops, offices, restaurants, etc. The subwoofer with built-in filter system<sup>®</sup> can be connected to two or more satellites. Can be used in low-ohm surroundings and in professional settings (100V).

The Tutto2.1 is a great set. You can quite easily create a fantastic sound using the patented filters and the finely tuned satellites. **Note however, that the satellites cannot be used separately, seeing as these have been tuned to the filters.** Nevertheless, you can order extras (Tutto2) to add units to the existing set. In this way you can give a passageway or large space the sound it deserves.

**⚠ Satellite speakers may only be used in combination with the patented Tutto1 subwoofer.**

**COLOURS** white / black

## TECHNICAL SPECIFICATIONS
