

**MEMO - BRYSTON CUSTOMER FEEDBACK**  
**SUBJECT – Email From Mr. Jay D. Howard**

April 6th, 2005

Hello James,

First off I would like to thank you for all of your help.

The B100, SN:#18 off the line, is incredible. This is my first audiophile quality system and I must say it is well worth the cost & the wait. I can honestly say that **I will be a Bryston customer for life.**

I'm getting ready to build a new house and am going to incorporate a 9B & a SP1.7 into the design. I am quite pleased with the PMC GB1's as well. The amp, speakers and Velodyne DD-10 all sound amazing together.

Again, thank you for all of your help, the Bryston B100 is everything I hoped it would be and more --- a lot more.
