

SPIRIT CLASSIC

Product specification sheet

Spirit Classic is born from the combination of Focal's latest developments in headphones micro-acoustics as well as our legendary know-how in the design of high-performance transducers. The headband and the memory foam ear cushions are perfectly sized for optimal comfort. The cone is true to the "Spirit of Sound" philosophy: mass, stiffness and damping are all controlled for dynamic, lifelike sound. Last but not least, Spirit Classic's sound tuning is perfect for listening at home: extended low end, a detailed mid-range and linear top end for a lighter, open sound... all you would expect from Focal!

Key Features

- Circum-aural closed headphones
- High-dynamic, faithful music reproduction
- Light cone (86 mg as against a market average of 110 mg), giving faster acceleration for more dynamic signal response
- Stiff, no-deformation cone dome for signal reproduction with no added distortion
- Optimal comfort and sound insulation
- Cable with call management controls for use with portable devices

Type	Closed back, circum-aural headphones
Impedance	32 Ohms
Sensitivity	102 dB SPL / 1 mW @ 1 kHz
THD	<0,3% / 1 kHz / 100 dB SPL
Frequency response	5Hz - 22kHz
Driver	Matching 40mm (1 ⁹ / ₁₆ "") Mylar/Titanium
Net weight	0.68lb (310g)
