

The Majestic Premium is today's most complete motorized screen.

Its top of the range screen material offers a perfect colorimetry and a large field of vision. Its opaque black back allows an installation in front of a window and its black borders improve the contrast level.

The fast and safe attachment system allows an installation on wall, ceiling or suspended. This fastening system has a large latitude for brackets placement: an important advantage for specific installations.

It uses a Somfy tubular motor, reliable and quiet. Its control interface includes an integrated infra red command (with a fine adjustment system for the screen material positioning), a provided deported sensor (allowing the casing to be slot in), a trigger input and a RS232 interface for home automation

Home automation

Wall, ceiling or suspended

Fast & safe clipping system

Fine adjustment system

Specifications

Screen Material

PVC screen material WMat-ST
1.0 Gain
150° Directivity
No hot spot
Permanent white treatment
Anti-Static
No corrugated effect
Opaque black back
Black borders
Optimal surface for DLP and LCD projectors

Case

White lacquered aluminum
Safe clipping system
Easy and fast install
Wall and ceiling mounting
Hook for hanging installation from ceiling

Motor

Somfy tubular motor, simple, reliable and quiet

Control methods

RS232 for Home Automation
Built-in IR remote control system
Remote control with fine adjustment system for the screen material positioning and batteries provided
Deported IR Sensor provided
12-Volt Trigger
Manual switch (Up, stop, down)

Warranty

2 years
