## TURNTABLE

### TT-42

### TT-42 Turntable

The analogue recording is still very alive. Quality turntables are still in demand. Digital discs simply set new performance standards up to which turntables must measure. Many cherished records may never be issued on digital formats and for those good turntables is now more important than ever. Marantz embraces an audiophile quality turntable with DC servo belt-drive and low-coloration tone-arm to answer the need for a high performance source component for the analogue record. The TT-42 is here to stay.

because music matters

R A N G E S E R I E S

## Features:

- DC Servo motor belt-drive system
- Full Automatic Operation
- Two speed selection
- MM Cartridge

## Benefits:

- Ensures accurate speed and rumble-free sound reproduction
- Easy and comfortable operation protects stylus from damage
- Plays both 33 1/3 and 45 rpm records
- Compatible with a vast majority of the amplifiers and phono equalisers

## Technological glossary:

### **Quality sound from Vinyl**

Vinyl records are still a part of most people's music collection. Therefore Marantz retains a turntable in its product range. TT-42 is designed to provide high performance of sound reproduction and ease of use.

### **Full floating chassis**

The record player is very vulnerable for mechanical vibration and therefore the best possible measures have to be taken. A fully floating chassis ensures vibration free support for more detailed and dynamic sound reproduction.

### **DC servo motor belt-drive system**

A DC servo motor provides accurate spin but this can be a source of noise. Therefore the belt drive system has got a clear advantage since the turntable platter can be isolated from the motor.

### **Full automatic operation**

In stead of worrying about a shaking hand, causing a drop of the tone arm and damaging the valuable stylus, the TT-42 provides an automatic start option. Just set the switch to START, the tone arm automatically goes to the beginning position of the record and puts the stylus gently on the vinyl. TT-42 also senses the end of the record, it will retreat the tone arm to the arm rest and switches off its power.

### **Two speed selection**

Vinyl record come with two different speed. 33 1/3 rpm LP and 45 rpm Single. TT-42 has selector to choose the speed you want to play.

### **MM Cartridge**

The TT-42 comes with a ready-fitted moving magnet (MM) cartridge. Its high output can be connected to an MM input, available on many integrated amplifiers and phono equalisers.

## Preliminary Specifications

### FEATURES

Motor	DC Servo
Drive System	Belt Drive
Operation	Full Automatic
Speed	33-1/3 & 45 RPM
Stylus	Moving Magnet

### INPUTS/OUTPUTS

Line Out	stereo
----------	--------

### SPECIFICATIONS

Rated Output	4mV/1kHz
Freq. Range	10Hz - 18kHz
S/N	65dB
Wow and Flatter RMS(/DIN)	0.07/0.1%

### GENERAL

Colour	Wood
Remote Control	-
Maximum Dimensions (W x D x H)	420 x 137 x 360 mm
Weight	5.4 kg
