| weight                  | 5,5 kg                                 |

retail price  
**980,00 €**

**Pro-Ject Art 1** is based on worlds best selling turntable **Pro-Ject Debut III**.

Famous Austrian artist **Barbara Mungenast**, internationally renowned for her circle-works, took the idea of the rotating vinyl record and made the **ART 1**. A work of art with reduced design and limited colours.

Equipped with a „Highend turntable tuning kit“ and the outstanding Ortofon moving magnet cartridge, it is a delight to look at and to listen to!

Enjoyment of art and social responsibility - both are equally important for me: revenues of selling **Art 1** will be donated to a relief organisation.

*Heinz Lichtenegger (CEO Pro-Ject)*

The austrian graphic designer loves maing art, that uses unorthodox picture language and innovation in design.
