GROWING ON SUCCESS...

Learning from present successes has always been one of the most effective ways to keep the good times rolling. At Tangent, our engineers and designers wholeheartedly agree. They put their creative minds together to deliver yet another new member of the Tangent EVO loudspeaker family.

The Tangent EVO E5 loudspeaker features a 5" driver unit to deliver even larger sonic experiences to the legions of faithful EVO fans. You can rely on the top-tuned components inside the solid cabinet for years of dynamic musical performances. The open-box construction draws on the bass port, located discreetly to enhance playback without distracting from the Tangent EVO E5's visual appearance.

Enjoy the attractive proportions, flexible placement options and deep bass effects from the Tangent EVO E5. Available in high-gloss black and high-gloss white.
