## PK201... Start sharing today and pocket a Pico

Project your multimedia on almost any surface, up to 70" in size, straight from the palm of your hand with the PK201 Pocket Pico Projector.

Show off stunning images and videos to family and friends without them having to crowd around your smart phone's tiny screen. Impress clients or classmates alike with PowerPoint® presentations thanks to the built-in media player with MicroSD card slot.

Convenient Mini HDMI, VGA and AV inputs allow you to connect to existing equipment such as netbooks and laptops, iPod® and iPhone®, digital cameras, DVD players and even games consoles.

With its rechargeable battery giving up to 1.5 hours of use from a single charge, there's plenty of time to share and enjoy your multimedia. From spontaneous presentations, fun photo slideshows, to your favourite video clips, the PK201 handles them all, anywhere and instantly.

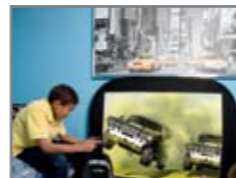

### PK201 - Portable projection - for work and play

Making presentations

Sharing holiday photos

Playing games

Watching movies

#### Ultra-Portable:

Superb mobile performance; its compact and ultra-lightweight design is ideal for people on the move. Take it out of your pocket and project for up to 1.5 hours on a single charge.

#### Point and Project:

Add multimedia files to your MicroSD card, pop it into the integrated card slot and start beaming stunning images, up to 70" in size, straight from your pocket and into the palm of your hand.

#### Extensive Connectivity:

Connect via Mini-HDMI you can achieve the sharpest image possible. The PK201 accepts a wide variety of computer and video inputs including; VGA, Composite and Component and there's even a USB input for convenient file transfers and battery recharging. Sound is catered for from the integrated built-in speakers and external audio connections means you can further enhance the visual experience.

#### Widescreen Resolution:

Bring photos, videos, PowerPoint® presentations and websites to life in WWGA (854 x 480) widescreen resolution.

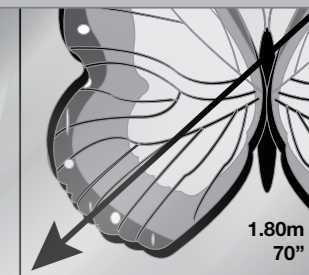

#### Green Technology:

The PK201 uses energy efficient LEDs to minimise running costs, extend life and minimise the impact on the environment.
