

VicStrip

Innovative and sustainable slat panels

V/COUSTIC
INNOVATIVE ACOUSTIC SOLUTIONS

Why **VicStrip** is the best solution

- / **Free of wood**, metal nails and with joints almost invisible
- / **Lightweight**, making it easy to transport, apply and offering less expensive shipment
- / **Sustainable**, by being manufactured with VicPET Wool, a material produced mainly from recycled plastic bottles
- / **Sound absorption** properties to control medium and high frequencies, engineered at Vicoustic research lab for VicPET Wool
- / **Humidity resistant** with no dust generation during handling
- / **Fast and easy** to install and maintain

Assembly time approx. (min./m ²)	~ 2	> 10
Produced by specialists in acoustic	✓	✗

^A We do not advise the use under direct sunlight. ^B Under specific requirements.

VicStrip
Brown Oak

An innovation in slat panels by introducing laminated VicPET Wool free of wood, making it more sustainable, flexible and lightweight.

VicStrip
Natural Oak

VicStrip was drawn with the lines of contemporary styling decorative wall panels to provide offices, restaurants, hotels and homes with a design embellished solution amid the added value of reducing sound reverberation.

**Easy to cut and install,
even on curved walls**

VicStrip
Natural Walnut

By reproducing a wood look without using real wood, VicStrip is a lightweight, flexible, easy to cut and readjust panel.

VicStrip
Dark Walnut

VicStrip can be easily glued to walls and ceilings, free of metal nails and with joints almost invisible. Less weight also means less expensive shipment and faster transport and installation.
